

## Colonials Run Wild On Quantico Court; Beat Marines 66-20

Parrack Leading Scorer With  
19 Points as O'Leary  
Uses Two Teams

Special to The Hatchet.

Quantico, Va., Jan. 16.—Playing before a greater part of the local post tonight, the Colonial courtmen took the Leathernecks into camp to the tune of 66-20. Marines and their families gave the "giants" a big hand as they vainly encouraged their home team, but the clever passing attack that the Pixturemen had built up was too much for the locals.

Securing a substantial lead early in the contest, Coach Pixlee substituted freely, using two complete teams. The Marines, finding their cause was lost, followed Coach Pixlee's example, and sent their second team into the fray.

At half time the Washingtonians led the Virginians, 34-6. Parrack, who had started his scoring early, amassed the surprising total of 19 points; Jimmy Howell, sterling Buff and Blue forward, was close behind Parrack in scoring; he landed seven of his floor shots, and dropped three gift tosses for a total of 17 points.

During the past week the Colonials have played three games on foreign floors, and have added three victories to their record. Preparing for the important St. Johns tilt to be played on Saturday Coaches Pixlee and O'Leary have worked the team up into a high pitch. The Marine contest was a warm-up for this event.

The "hot hand" that Parrack experienced in Baltimore last week carried over, and supported by a well balanced team, brought G. W. an easy victory.

The game was crowded with thrills, but the fast passing attack that six-footers exhibited outshone all other branches of play. "Sharpshooting" Jimmy Howell raced up and down the floor, and was the bright spot of the second half.

Hertzler won the tap-off from the "Devil-dog" center throughout almost the entire contest and gave the George Washington team a distinct advantage from a scoring angle; Williams and Tipton who played opposite him at center were able to score only two points through his impenetrable guard.

Free tosses, which have to date been a thorn in the sides of the District lads, formed an appreciable part of the large score; out of 15 attempts they safely tucked in 12 points.

Capt. Otto Zahn and Forrest Burgess trailed Howell by a small margin. Burgess scored 10 points and Zahn 9 in the rampage. Parrack raised his scoring average to 13.33, and Burgess soared to 11.42.

"Ox" Wickham, 240-pound center, was out of the line-up due to injuries received in the Loyola fray on Saturday.

## Tryouts for Varsity Debaters Thursday

Subjects Are Announced for  
Men's and Women's Varsity Tryouts

Tryouts for the men's intercollegiate debating team will be held on Thursday, January 19, at 8 p. m., in Corcoran Hall 16. Those trying out should come prepared to make a six or eight minute speech on any phase of the following question: "Resolved, That the U. S. Government should control radio broadcasting." Anyone wishing further information should see Professor Roberts in the public speaking department in Building Q.

There will be a meeting of the women's debating squad on Friday, January 20, at 2:10 p. m., in Q-11. At the meeting tryouts will be held in order to select the team to debate Hood College at Frederick, Md., on February 10. Speeches should be prepared of six or eight minutes on either side of the following question: "Resolved, That the U. S. should agree to the cancellation of inter-allied war debts."

It is not too late for women who are interested in intercollegiate debating to come out at this time. There will be other debates on this same question later in the season. The schedule has been completed and it is now definite that George Washington will debate Hood, Boston University, Pittsburgh, Swarthmore, and Trinity College.

## Jack Goode Elected Senior President; Kathleen Watkins Made Vice President; Garrett, Ask, Secretary and Treasurer

Evelyn Iverson, of Columbian,  
to Direct Senior Class  
Night Program

### CLASS PLANS PROGRAM

#### Council Elects Officers for Class of '33 From Among Own Membership

Jack Goode, of the Law School, was elected president of the Class of 1933 at a meeting of the Senior Class Council, Sunday.

Kathleen Watkins, School of Library Science, was elected vice president; Betsy Garrett, Division of Fine Arts, secretary; and Reynold Ask, Engineering, treasurer.

Officers for the senior class were elected from the members of the Senior Class Council which is composed of one senior from each school and division of the University elected by popular vote of the school or division he represents.

Evelyn Iverson, Columbian College representative, was named chairman of the senior activities committee. She will direct the senior class night program.

According to president Jack Goode, the seniors are planning an extensive program which will begin as soon as examinations are over.

Announcement of other committees will be made at a later date.

## Louise Wright New Dramatic Club Head

Chittum, Gay, Danzansky Are  
Elected to Offices; New  
Members Admitted

Louise Wright was elected president of the Cue and Curtain Club last Thursday, to fill the vacancy left by Hazel Shea. Miss Wright's assistants are Amanda Chittum, vice president, and Karl Gay, secretary. Joe Danzansky will bring the history of the organization up to date for the year.

New active members elected at the meeting held on last Thursday evening are: Leon Commerford, Ralph Kennedy, Melvin Law, Betty Reeves, Betty Reynolds, Joseph Sizoo, and Grant Van Demark.

Associate members are Sam Caldwell, Margaret Gilligan, Royal Gunnison, Maxine Kahn, Gordon Potter, Dorothea J. Sedgewick, Betty Rice, Jack Richmond, Nina Roberts, Ken Romney, Tom Taylor, Tom Toner, Jim Wilfong, and Don Wilkins.

Under the present administration it is planned to reorganize the club, and follow a policy whereby the members may derive some material benefit from their affiliation. This policy will be worked out and presented at the next meeting to be held on February 8.

### Group to Greet Athletic Teams Holds First Meeting

An organization to be known as the Greeters' Club was formed last night for the purpose of authorizing a committee to receive members of visiting athletic teams.

Initiative in the movement for the club was furnished by Max Farrington, assistant director of athletics. It was decided that the organization should consist of three seniors and two juniors, and immediately thereafter members were chosen. Jack Vivian, senior manager of sports, will head the organization, which also includes the following: Bernard Fagelson, manager of football; C. Manley Fessler, Hatchet editor; Joseph Danzansky, junior class president; and Robert D. Savage, member of the Senior Council.

## Wandering O.D.K.'s Sought by Vivian

Jack Vivian, secretary of the George Washington University Circle or Omicron Delta Kappa, is anxious to establish contact with all members of other Circles who are now registered in the University, with a view to working out programs for various functions.

All O. D. K.'s are requested to get in touch with Vivian by calling Adams 7182 or by letter addressed to 1445 Spring road.

## Association Honors Prominent Doctors At Annual Banquet

Smith and Russell Are Guests  
of Society Which Bears  
Their Names

With two of the three eminent medical scientists for whom it is named in attendance, the Smith-Reed-Russell Society, newly formed scholastic body in The George Washington University School of Medicine, held its inaugural banquet on Friday night at the University Club.

The honored guests, who were given keys of the society, were Dr. Theobald Smith, recently retired director of the Rockefeller Institute of Princeton, and General Frederick Russell, director of the International Health Division of the Rockefeller Foundation in New York. Dr. Walter Reed, third scientist whose name the Society carries, died a few years after his great work on yellow fever. Colonel A. E. Truby represented him.

The program was opened by Dr. Cloyd Heck Marvin, president of the University, who, in his address of welcome, stressed the value to the human race of scholarship and investigative work.

Among those attending the banquet, in addition to the student members of the society, were several emeritus professors of the school and active members of the faculty.

Dr. Smith, Dr. Russell, and Dr. Reed successively held the chair of bacteriology in the George Washington School of Medicine during the years between 1886 and 1910.

## Fraternity Penalized By Student Council

Theta Delta Chi Denied Social  
Functions for Failure to  
Ask Dance Date

As a result of action taken by the Student Council, the local chapter of Theta Delta Chi fraternity will be denied the privilege of holding any social functions during a two-month period starting January 10, 1933.

This penalty was incurred when the fraternity held a dance on December 22, after having failed to submit to the Council a request for that date as well as a list of chaperons. The motion to suspend Theta Delta Chi's privileges was made at the Student Council meeting on January 11, and a formal notice of this action was forwarded to the fraternity.

A similar offense committed by the same group earlier in the semester brought a warning from the Council, but no definite action was taken until the second offense was committed.

## Cherry Tree Beautiful Girl Contest Closes Today, Subscription Drive Opens

Publications Offices Now Making  
Reservations; No  
Price Change

Subscriptions for the 1933 Cherry Tree, the annual of The George Washington University, are now being received at the publications office, 2016 H street.

With many features offered this year which the editors state have never before appeared in any college annual, the 1933 yearbook will probably prove even more popular than those of former years.

The policy of the past of only ordering sufficient copies to cover the advance sales will again be strictly followed, making it necessary that orders be received before the book goes to press.

The form on page four may be filled in and mailed to the publications office accompanied by a check for \$4.00, or paid for in cash at the publications office.

## Province Banquet Given by Pi Gamma Mu Sunday Evening

Chapter Installed at George-  
town University, Membership  
Conferred Upon Rev. Nevils

With numerous collegiate dignitaries from the four universities in Washington present, Pi Gamma Mu, honorary social science fraternity, gave its District of Columbia province dinner last Sunday night at the Kennedy-Warren Hotel. Members from chapters at American, George Washington, Catholic and Georgetown Universities were present.

Perhaps the most important event of the evening was the installation of the chapter at Georgetown University and the conferring of membership upon Reverend J. Coleman Nevils, S. J., president of Georgetown University.

Greetings by Johnson  
Greetings from the George Washington University chapter were made by A. Rex Johnson, president. Mr. Johnson also introduced Professor John Donaldson of George Washington, who gave a short speech as governor of the local province.

After a piano solo, Dr. Frank O'Hara of Catholic University, who is widely known for work in economics and sociology, addressed the gathering in behalf of the college professors present.

Following Dr. O'Hara's talk, Senator Royal S. Copeland spoke of men high in public life noted for their research in sociology. Senator Copeland stressed the point of view that the purpose of government is to serve humanity rather than to protect property. He emphasized the tremendous social obligations of undergraduates who owe a debt to society which is responsible for their education.

Dr. Patterson, Principal Speaker  
Dr. Howard S. Patterson of the University of Pennsylvania was the principal speaker of the evening, discoursing on "The Ideals of Pi Gamma Mu." Dr. Patterson traced, in a sketchy fashion, the history of Pi Gamma Mu, from its founding by LeRoy Allen to the present time, stating that in 1933 "the sun does not set on our academic empire." He also discussed certain problems which must be faced by sociologists. Among the more important of these problems are the questions of just what are the social sciences and how to prevent the various chapters of Pi Gamma Mu from becoming interested in merely one of the social sciences. In closing his talk, Dr. Patterson stressed the three ideals of the

(Continued on Page 4)

## Officers of Junior Class Select Men For Chairmanships

The following committee chairmen were chosen at a meeting of the junior class officers last Saturday: John Barbers, good and welfare; Grant Van Demark, prom; Edward Northrup, contact.

At the next meeting of the class, tentatively planned for February 9, other members will be appointed to these committees. A constitution committee will also be appointed at that time.

The good and welfare committee will direct its efforts towards the development of a definite class consciousness and the planning of a series of class mixers.

One representative from each school of the University will comprise the contact committee. This committee will endeavor to arouse class spirit in the various schools.

## Warren, Critchfield Lead Interfraternity Prom Grand March

### PROM QUEEN

RUTH WARREN,  
Who will be escorted by Wendell Bain,  
Interfraternity Council social chairman,  
at the head of Greeks' Grand March.

## Promise of Junior Prom Looms Bright

Joe Danzansky Appoints  
Grant Van Demark So-  
cial Chairman

With the appointment Saturday of Grant Van Demark as social chairman of the junior class by Joe Danzansky, president of the class, and announcement that the junior class will meet February 9 to discuss problems rising in connection with prom arrangement, it appears that a social function long missing at George Washington University would this year be founded.

Perusal of election platforms published prior to the balloting of December 21 show that the four officers elected all included enthusiastic declarations in favor of a prom and in addition three defeated candidates also included prom planks.

The appointment made Saturday, following a meeting of the officers, culminated more discussion and approval of the idea, according to a statement made by Harriett Atwell, vice president.

She further added, however, that the officers contemplated no further action until the approval of the class should be received and the meeting on February 9 was scheduled for that purpose.

Questioned as to whether or not attendance would be limited to juniors, she could only say that if it would probably depend on how many juniors could buy tickets.

### Employment Office Urges Seniors to Register Now

Prospective graduates are urged to register at the University employment office, in Lambie House, as soon as possible.

Though many are unaware of the fact, many lucrative positions have been available through this branch of the University; yet the lack of full applications has often deprived a graduate of the opportunity to obtain work. The bureau recently was called upon to recommend an individual for work in Alaska and it was unable to do so because graduates had failed to give complete information as to their qualifications.

"Register now, and help the University help you."

## Hatchet Drops Issue For Week of Finals

Due to the fact that examinations will occupy the whole of next week and that classes have been suspended for that period, The Hatchet will omit the regular issue which would ordinarily appear on Tuesday, January 24. The next issue will be that of January 31. The deadline for that number has been advanced from Friday noon to Sunday evening at 7 o'clock. Reporters are especially urged, however, to have all copy in by that time. There will be no editing of copy or headline writing on Friday afternoon, therefore, and all such work will be done Sunday evening.

### Council Rules "No Corsages" as Programme Dance Is Announced

### GRAND MARCH AT 12

Greeks Will Award Athletic  
and Scholarship Cups to  
Fraternalities

Ruth Warren, escorted by Wendell Bain, social chairman of the Interfraternity Council and Ruth Critchfield with William Hanback, president of the council, will lead the grand march of the annual prom which will be held in the main ballroom of the Willard Hotel on February 1.

The prom will be the first dance of the new semester. "No corsages," a now popular plea, will again be the rule, according to a resolution passed by the council.

Jacques Renard and his famous Camel Hour Orchestra will provide the music for dancing which begins at 10 p. m. and will continue until 2 a. m. Program dancing will start at 10:30 p. m.

At midnight, between the sixth and seventh dances, the grand march will take place. Following this will be the distribution of favors. Cooperation of the various fraternities which subscribed to their full number of invitations made favors possible. To lend color to the affair, the prom committee selected a uniform time of souvenir giving promises of the evening.

Will Hold Tapping  
Provost William Allen Wilbur will preside at the Gate and Key pledging ceremony, which will tap neophytes at this time, it was announced by William Helvestine, president of the organization.

Awarding of athletic and scholarship cups to the various fraternities will be made by Ed Crouch, chairman of the athletics committee, and Thomas Vaughn, chairman of the scholarship committee.

Immediately following the presentation of the cups, Jacques Renard will "strike up the band," and dancing will continue until 2 a. m.

President and Mrs. Cloyd Heck Marvin have been invited to head the list of patrons and patronesses, which will include the deans of the various schools and their wives.

Other members of the social committee include: Jack Royce, who has arranged for the grand march; Grant Van Demark and Jerry Free, in charge of favors and programs.

## Honorary Sorority Inducts Thespians

Sigma Delta Phi Accepts Margaret Gilligan, Elizabeth Rice at Meeting

The winter initiation of Sigma Delta Phi, national honorary speech arts sorority, was held Sunday afternoon, January 15, at the Alpha Delta Pi rooms. Margaret Gilligan and Elizabeth Rice were taken into the organization at this time because of their fine performances in the Cue and Curtain production of "Cock Robin," which was given at the Wardman Park Theater in November.

Following the initiation Miss Louise Falligant spoke to the group on her speaking experiences during the recent political campaign. Miss Falligant, formerly a student at The George Washington University Law School, debated for two years with the women's intercollegiate debating team. She is the national secretary of the Young Democratic Organization of America. Tea was then served to the guests, including the members of Cue and Curtain Club, the Troubadour board and the faculty of the department of public speaking.

### Students Must Indicate Yearbook Picture Choice

Holders of Cherry Tree picture proofs up to number 400 who have not yet indicated which sitting is to appear in the book must take this step at the Casson studio before 5 p. m. Friday, January 20, or it will be necessary for the photographer to personally make the selection, it was announced by the publications office yesterday.

## The School of Engineering Is Awake; Much Credit Goes to Heimbürger

The Hatchet congratulates the School of Engineering upon the success of their last social function and upon the display of cooperation and group spirit which has characterized that division of the University for the past two years.

In particular do we wish to extend our sincere approval of the signal work contributed by Ray Heimbürger. It was Ray who fathered the idea of an engineer's ball in the first place. He put the advisability of getting the heads of the various parts of the School of Engineering together, and so to promote working efficiency. Result—the Engineer's Council, which organization has done itself proud through the staging of a successful smoker and a delightful dance.

George Washington University needs more men of this type. There are myriad opportunities for cooperation among the groups on campus. And the probabilities are that there are plenty of students who have the necessary qualities for leadership but who allow those qualities to remain latent. Again we congratulate Ray Heimbürger for his ability to take advantage of opportunities as he sees them.

## A University Curriculum Must Consider Students With Varying Likes and Dislikes

In the last issue of The Hatchet we printed a letter by a graduate student who urged the abolition of the University football team as a means of lowering tuition at George Washington. While we admire the sincerity of this student, we cannot help but point out a few innocent inconsistencies in the contentions of the writer.

It is urged that any college or university should devote itself "to the search for truth, to scholarship, and to democratic ideals" so as to "spontaneously generate respect and love for the institution so oriented." To this we agree. In fact we would go further and insist that an educational institution be so democratic as to include a diversified program of education, both curricular and extra-curricular, which will appeal to the interests of every University student.

This has been a consistent attitude on the part of The Hatchet. If the graduate student from New Jersey seeks the abolition of the football team he is as justified in urging the abolition of the debate team, The Hatchet, the glee clubs, and the basketball quintet, in the interests of progressive education.

But this we feel would be a decided backward step entirely incompatible with the very spirit of a university. It is not a matter, Mr. Flury, of "keeping up with the Joneses." Quite the contrary, it is an obligation to present a diversified and liberal educational program which will exceed that of the Joneses in its appeal and successful administration of scholastic needs. And certainly a man who holds degrees from Columbia and Pennsylvania cannot fail to recognize the correctness of this trend! We borrow from Harvard that which by experience has proved itself to be of more value than anything which any other system has to offer. We borrow just as readily and with as much enthusiasm a successful educational instruction cannot be maintained on a shoe-string!

To insure a University student the best possible instruction it is necessary to pay salaries to professors. At the present time three of George Washington's faculty members are returning from a leave spent in study abroad and in local educational institutions. Six more will leave for the second semester. Such men must be paid.

It seems to The Hatchet that the Mr. Flury under estimates the number of day students in the University. The last figures showed that about 65 per cent of the enrollment at George Washington was comprised of people taking more than 15 hours. And it is obvious that were it not for the latter, who form the nucleus, at least, of the student body of the University, there would be no opportunity for the part time students to obtain the educational advantages which they are seeking at George Washington.

We seek no argument as to the respective merits of full and part time students. What we would point out is that we do have both and that, since we do, it is only fair and equitable that both be considered.

## Bouquets and Brickbats

Our vote for efficiency to that downtown daily which upon being asked who holds the presidency of France promptly replied: "Doumer" . . . (the gentleman named occupies a niche as one of the French Republic's immortals, having been assassinated some months ago) . . . and to that inveterate codd theatre-goer who sat through the movie interpretation of Hemmingway's novel in a downtown flicker emporium to come away from the theatre quite satisfied that she had seen her favorite matinee idol in "All Is Quiet On The Western Front," our nomination for membership to the "ignorance is bliss" gallery . . . plenty of nice words for Malkus and his musicians, who are actually going through with an attempt at occasional symphony concerts . . . (the Gottlieb "Scherzo and Minuet" is a composition by a G. W. student) . . . decided bouquets to the Liberal Club for sponsoring the importation of that field secretary for the League for Industrial Democracy to speak at its meeting in Corcoran 17 Thursday night . . . (he'll discuss the New Social Order and the Student) . . . all this controversy about the increase or decrease of University fees is most interesting . . . also the suggestion of abolishing the football team . . . (in view of the fact that several Big Ten schools have just announced the abolition of "crews" and "hockey teams") . . . the comments on one Henry Flury in last week's issue are especially significant since that gentleman holds degrees from Columbia and Pennsylvania . . . (where they have as yet made no pretense of lowering tuition or abolishing athletic teams) . . . the answer to the New Jersey by Mr. Hunt is indeed enlightening . . . who's next? . . . bouquets to Ray Heimbürger, who has seen fit to let us know that G. W. has a School of Engineering . . . (which, incidentally, finds time to "do" things) . . . your own ticket about that interfrat razz sheet to be run by Rollo . . . and our thanks to Betty of Nona fame who writes to tell us (among other things) about that sorority sister who decorated the chapter rooms because she couldn't resist a shivering salesman . . . Robert F. ("Valley of Ten Thousand Smokes") Briggs, G. W. Botany head, calls forth applause on his election as president of the Washington Academy of Sciences . . . your own ticket as to the advice given by Vinnie G. ("Mama") Barrows to Frosh coeds as to exam preparation . . . (it included a "fatalistic attitude," "swimming," and "a cup of coffee" before exams for best results) . . . we suspect the addition of a little study might not harm . . . let's hope for some enthusiasm in response to the announcement of men and women debate team try-outs . . . (G. W. has a reputation to maintain) . . . congrats to the two members elected to Sigma Delta Phi, national honorary gab arts group . . . (both coeds, of course) . . . and welcome to the members of the faculty returning from their studies after a semester leave of absence spent abroad and at various education centers in this country . . . (all of which explains to some extent at least why well-equipped Universities must charge tuition) . . . and bon voyage to those who are leaving to take up books or do research work during the second semester.

ANTON OMASIA.

The dope on Doc Hunt's love affair? . . . Why the A. D. P.'s have vetoed men? . . . Who stole the S. A. E.'s food on Halloween? . . . What's it going to cost Charley Tompkins to make good that second mortgage on the charge house that's worth ten grand? . . . Why girls can't satisfy Fesler? . . . These are but a few of the soul-shocking facts that will feature the greatest Razzberry in Prom history. . . . "A Dick Rollo Publication" with an all-star cast of editors. . . . Not content with this, Rollo extends the associate editorship of this Razzberry of Razzberries to none other than Betty Rollo, the feminine anonymity, whose criticisms and remarks have shaken even the foundation of the press. . . . Don't miss "The Razzberry." . . . Razzberries!!! . . . Been reading about these Zombie critters—you know, no mind or nerve. Any G. W. student could qualify for that after two finals. . . . The second annual Engineers' Bowl minus complimentary was a whoisit, although Rollo still can't decide just which one of them leaders was "Hoibie," the whispering gent. . . . That President Billings is "a lover" seems to be a confirmed fact, judging by the number of women who insisted on trademarking his collar at ye prom. . . . The only thing that helped that Grand March besides the fact that nobody marched was the feminine leaders. . . . Scotty was a knockout in a black crepe with one of them essence of spring organdy collars, while Betty Coon went Constance Bennett in black velvet with balloon sleeves. Dotty Algire was S. A. plus in a simplicity white satin, while Adele Merriman stopped the boys in a black velvet with those suspender shoulder straps which give the back plenty of play. . . . Any contribution Dick Rollo might have made to the Pick and Shovel on the back of that dedicated front cover would have died of starvation. That, is, after a glance at the rest of the contents. . . . Even we can't print that embarrassing moment of Sis Porter's at the Naval Academy chapel, but it's in a class with Kent Algire's, when a "fun mad" lady up and kissed the blushing boy at Child's on New Year's Eve. . . . Sherly announces the loss of 15 pounds in the last month since using the "Chips Regulated Diet." It's easy when Rollo reduces for you. . . . It took the usual coy Kappa Fugitt to tell "Baldy" Hanback that he should choose a Kappa to lead the prom as the little Sigma Kappa pledge, Critchfield, was too young to fully appreciate the significance of the honor. "Smooth Nellie" and how! . . . It would be interesting to know the young lady whose titter could be heard over the phone on calling Gordon Potter's apartment while his mother was in New Jersey. . . . It's also a mystery who has been blessed evening at the K street madhouse, but anyhow they don't haul coal in that baby carriage which has been parked out front for the past week or so. . . . Sue Crump, "the old gray mare" she ain't what she used to be. . . . A grand march is bad enough but another one planned by Jack Royce is a finisher. It's been suggested he might do better if he wore those riding boots. . . . Just when we had Gates and Prichard all married up with a house full of Wandering Jew ferns, welcome home, and God Bless Our Home Jews, Kitty dumps the can and goes for that Acacia Pierce. And anyone knows that an Acacia isn't as settled as Gates. . . . Who could wish anyone pleasant dreams with finals staring them in the face. Anyhow, here's a little cheer. An revoir.

DICK ROLLO.

## LETTERS to the Editor

### Student Advocates Raising Tuition Fee

To the Editor:

In the last issue of The Hatchet there was a letter of Mr. Flury's which complained of the cost of college tuition and of the amount of money expended for athletics. I wish to answer his letter by saying that if he wishes to use statistics, he should publish all of them. He says that this is a year of depression and that those who are in the employ of the Federal Government have been reduced 8 1/2% in their salaries. Everyone acknowledges that. He also says that George Washington University enrolled fewer students this year than last year, because (according to him) people cannot afford college this year. He forgot to say that the enrollment for this year showed a very large increase in the number of students taking full courses; that 63% or more are taking 15 hours this semester. Does this mean that the unemployed have taken up school? It seems as though they must have the money to take six or more additional hours of study. Mr. Flury says: "Why try to keep up with the Joneses?" and "Why try to be like Harvard or Yale?" I would like to ask him if he thinks that a college that endeavors to be on an equal footing with the best in scholarship, athletics, and buildings is keeping up with the Joneses. It seems to me that the nearest parallel to G. W. U. in Washington is Columbia in New York City. Does Mr. Flury think that Columbia, a large urban university, is keeping up with the Joneses? At this time the dividends from University investments are much below normal and G. W. U. should raise the tuition to make up for this. The loss of students would be very slight and after all everyone cannot go to college. History has proven that since there are comparatively few "white collar" jobs to be filled, mass education breeds discontent. (The Liberal Club will probably take offense at that statement.) So raise the tuition and raise the price of articles in the University store so as to make a profit. Why not charge students admission to home sports events? More money should be spent on athletics and a spectacular team with a hard schedule is a college's best publicity and after all, isn't it publicity that makes or breaks a college? I am not an athlete myself, but I hope that in the future G. W. U. will obtain the best in professors and coaches alike and as the scholarship increases let's put super teams in the fields of football, basketball, baseball, track, crew, and swimming and do it even if the students have to be taxed to make it possible.

Sincerely,  
F. D. HUNT.

### Engineers' Council Appreciate Publicity

To the Editor:

The Engineers' Council wishes to thank you and your staff for the generous amount of publicity given the Engineers' smoker and the Engineers' ball, both of which were given under the sponsorship of the Engineers' Council.

It is, indeed, an incentive for this newly-formed organization to have the cooperation of The Hatchet in its first attempts to coordinate the student activities of the Engineering School. We consider these first attempts highly successful.

Future success of our activities, we feel, will also depend to a great extent upon your cooperation.

Sincerely yours,  
HERBERT C. S. THOM,  
Vice President, Engineers' Council.

### "Teaching Procedure" Favorably Received

"Teaching Procedure," written by Dean William Carl Ruediger, received a very favorable review in a recent issue of the Journal of Education.

"Dean Ruediger has brought into this one book a complete and elaborate treatise on everything of interest and importance to one who seeks a course in teacher training," the Journal states. "It is philosophic and scientific; it is inductive and deductive; it is logical and psychological; it is a treatise on literature, art, and music."

The book, published last August, is already being widely used in the colleges and universities of the United States. It will be used in two courses, the technique of teaching and the teaching process, at this University next semester.

## CALENDAR

Tuesday, January 17

The Senior Panhellenic Council will meet at 12:10 in W-17.  
Orchestra will meet at the Ten O'Clock Club, 1603 K street, at 7:30 p. m.

Wednesday, January 18

Le Cercle Francais Universitaire will meet at 8 p. m. in Lambie House.  
Speakers' Congress will hold an election at 2 p. m. in W-15.

There will be a W. A. A. Board meeting at 1 p. m. in Building R, second floor.

Thursday, January 18

The Junior Class committee chairmen will meet at 12 noon in W-17.  
Christian Science organization will hold its services in Lambie House at 8:10 p. m.

## DID YOU KNOW THAT

The methods of higher education adopted by George Washington University at its founding were the result of information gathered from visits to the seats of higher learning at Oxford, Cambridge, Edinburgh, Glasgow, Paris, Genoa, Milan, Florence, Bologna, Paris, Venice, Rome, and Naples. Prof. Alva Woods and Joseph M. Staughton (son of the first president of the University) were commissioned to go abroad for this purpose in 1821.

The broad aims of the men who founded the University have been realized, is evidenced by the number of the 14,500 graduates of George Washington University who have attained eminence. A few of the distinguished alumni are: John Garland Pollard, governor of Virginia; Arthur P. Davis, formerly director of the United States Reclamation Service and now engaged in important engineering projects in Russia; Dr. Luther Reichelderfer, well known surgeon appointed by President Hoover to the post of Commissioner of the District of Columbia; Edward J. Henning, at one time assistant secretary of labor; Peyton Gordon and Alfred Adams Wheat, justices of the Supreme Court of the District; George B. Cortelyou, formerly secretary of commerce and labor and now president of the Consolidated Gas Company of New York; Brigadier General Avery D. Andrews, international banker; William Waterman Paddock, deputy governor of the Federal Reserve Bank of Boston; Alvan Macauley, president of the Packard Motor Car Company; Wilbur John Carr, director of the consular service and assistant secretary of state; Fred Morris Dearing, ambassador to Peru; Dewitt Clinton Poole, counselor of the embassy at Berlin; Nelson T. Johnson, ambassador to China; Hoffman Philip, minister to Persia; Arthur H. Geissler, minister to Guatemala, and George W. Littlehales, principal scientist, hydrographic office, U. S. Navy Department, who worked out the method of navigation used in the Byrd Arctic flight.

By sweeping the cobwebs, several interesting things about The George Washington University are unearthed: Once there was conducted a preparatory school known as Columbian Academy. Dr. William Allen Wilbur was dean of the Academy, which ceased to exist in 1896. It was to this Academy that the painting, "Boston Boys," which now hangs in Corcoran 10 was presented by W. W. Corcoran, founder of Corcoran Art Gallery and who, at the time of his death, was President of the Board of Trustees of the University.

Over 12% of the combined staff of instruction of Junior and Columbian colleges are listed in "Who's Who." They are: President Cloyd Heck Marvin, Provost William Allen Wilbur, Dean Henry Gratton Doyle, Paul Bartsch, professor of zoology; Ray Smith Bassler, professor of geology; Samuel Flagg Bemis, professor of history; Edward Elliott Richardson, professor of mental philosophy; DeWitt Clinton Croissant, professor of English; John Donaldson, professor of political economy; Robert Fiske Griggs, professor of botany; Charles Edward Hill, professor of political science; Elmer Louis Kayser, professor of history; George Neely Henning, professor of romance languages; Colin Mackenzie Mackell, professor of chemistry; Hiram Colver McNeil, professor of chemistry; Edward Henry Seibt, professor of German, and William Hayes Yeager, Depew professor of public speaking.

—Eleanor Heller.

### The Eleventh Hour

I thought I heard a clock chime  
In a distant hidden tower,  
It seemed to whisper—romance  
Is waiting at this hour.

But, stay—what Devil is this here  
Who points with fiendish glee,  
His eyes distended staring at  
A pile of books 'fore me.

Botany, chemistry, physics, math,  
"You've got to cram," he said,  
English, geology, soch, and psych,  
How will I keep my head?

This is no time for romance,  
No dreams of sweet refrain,  
For nightmares of those finals,  
Keep drifting through my brain.

—Olivia Nixon.

## Law School Alumnus Chosen High Judge

Arthur L. Munro, George Washington Law School graduate, class of '24, was recently elected judge of the Superior Court of San Diego County, California, with the distinction of having received the highest vote in the history of that office.

Judge Munro, following his graduation, practiced law in San Diego for a few years. His first office was that of Justice of the Peace, after which he was appointed as assistant city attorney. In 1925, he was promoted to the post of deputy district attorney.

Serving in this capacity for seven years, Judge Munro's record was such that on January 6, 1932, Governor Rolph appointed him judge of the Superior Court of San Diego County, to fill an existing vacancy.

In the recent November elections, Judge Munro sought reappointment and was elected with the highest majority ever given a candidate for the office.

ROBERT P. HERZOG

What's the matter with the basketball team? The Colonials, man for man the same teams, are fully 10 points weaker than they were the same time last season. Lack of pep and the "don't give a damn" attitude is wracking havoc with the squad. Jimmy Howell, fast, aggressive, and alert, makes the rest of that outfit look like a bunch of "sleeping beauties" at practices. Coaches Pixlee and O'Leary, though, they are clearly dissatisfied with the poor showing, continue with the same starting lineup—maybe some of those bench warmers can show the boys a trick or two. Their losses have been to teams admittedly strong, but in at least two of these games the victory was within their grasp and they lacked the "urge" to reach out and grab it. We are all anxiously awaiting a sudden reawakening; don't disappoint us! (Note: I hadn't seen the Loyola game when I wrote this.)

There might be a familiar name or two on the West Point roster next fall. Wick Parrack is leading D. C. scorers again this season; Burgess is close behind. . . . Paul McKinnis, reserve varsity fullback, made Westminster's all-opponent team. . . . "The folks" gave Shorty a blanket for an Xmas gift. . . . It looks like the way to a man's heart, formerly through the stomach (Aunt Jemima's cook book) is now through the dog. . . . What big story is The Hatchet suppressing in order not to hurt the possibilities of the plant? . . . G. W. grid team rates fifty-ninth on a four-year rating schedule announced recently by a certain Mr. Dunkel. . . . Says Ed Wynn, "Dunkel little deeper."

Cheering at the basketball games is so weak that Purchasing Agent Farrington is on the market for a good pair of crutches. Attendance is all that can be desired, but "the cat must have gotten your tongues."

Last September the Army and the Navy settled a three-year rift; Princeton-Harvard have settled their feud—boy, wouldn't the cash-tomers eat up a C. U.-G. W. post-season contest next winter; but according to the big shots, "nothing doing"—we'll have to be satisfied with the Rose Bowl.

When the team went to Pitts. last week, "Long Bill" Noonan got his first train ride. Bill said, "I had a heck of a time getting in that hammock by the window."

Because ye correspondent (and Mr. Pixlee) noticed that the new basketball timing rule wasn't being enforced properly an electric device is being placed in the gym. Three red flashes will notify the referee when the three or 10-second regulation has been violated; the flashes will operate automatically from the "press box."

In the words of one who knows, "Lacrosse will not be an intercollegiate sport at G. W., and probably not intramural."

A waiter in one of Annapolis' famous restaurants was stunned the other night when "Ox" Wickam ordered "a porterhouse for 4—\$2.50."

Hollis "Country Boy" Harrison was down at Union Station waiting for a train. He got friendly with a professional, smooth confidence man. Harrison gave him a \$5 bill to buy cigarettes. Things began to happen. . . . two fat ladies were k. o. d in the chase. . . . Hollis got his last glance at the frog-skin through a plate glass, swinging door. If it wasn't for hurting the Freshman's feelings I'd tell you more.

Freshmen Trounce  
Gonzaga Quintet

Kane Scores Five Field Goals  
in Second Half—Final  
Score 42-26

The Colonial freshmen worked well yesterday afternoon in their hardwood encounter with Gonzaga in the H street gym, leading throughout the game and finishing on the long end of a 42-26 count.

Five field goals in the second half by Kane featured the tussle and made him the high point scorer of the afternoon. Alfaro was not far behind with 13 points.

Scoring the greatest number of points for Gonzaga as well as doing some excellent guarding, Sweeney was the bright spot in the Gonzaga line-up.

Geo. Wash.	P.G.	F.	T.	Gonzaga	P.G.	F.	T.
Alfaro, E.	5	3	13	Torley, F.	2	1	5

St. John's and Loyola Quints Bow  
To Fighting Colonial Court Team;  
Parrack Nears Scoring Record

Burgess Breaks Up Annapolis  
Game With Eight Field  
Goals and Free Shot

Journeying out of town to near-by points last week the Colonials added two more victories to their string, which now numbers five. On Wednesday night in Annapolis, a 53-32 triumph was registered over St. John's, while another Maryland outfit met defeat at the hands of Pixlee's charges on Saturday night, Loyola of Baltimore being turned back, 55-41.

The last mentioned engagement probably would have been one of the proverbial nip and tuck affairs had it not found Wick Parrack in his very best form. Totalling the almost impossible sum of 29 points, the G. W. giant registered 18 field goals and cashed in his three charity attempts. His "hot hand" extended throughout the game and alone served to keep the Loyola five on the defensive.

It would seem that "as goes Parrack, so goes G. W.," for although the sharp-shooting ace grabbed the lion's share of the points, the entire team was in fine form. Demonstrating for the first time this year the sensational scoring power which characterized their play last season, the Colonials produced a sensational brand of ball that fairly rocked the gym with its sparkling shots and lightning passes, and a spirit in play that must have pleased Messrs. Pixlee and O'Leary immensely.

Burgess Scores Eleven  
Previous to meeting George Washington, the Baltimoreans had made quite a name for themselves in local court circles, particularly for their defeat of Western Maryland. Naturally the Monumental City fans were more than a little surprised to see the visitors win so convincingly, and with the home team apparently in good form, too.

In the last half Burgess became infected with Parrack's accuracy formula and brought his evening's total to a

(Continued on Page 4)

Courtmen Engage  
Brooklyn Johnnies  
Here on Saturday

With half of the season's games played, the Colonial courtmen are presented with their remaining opportunity to make amends for several unexpected setbacks when they engage St. John's College of Brooklyn Saturday night in the H street gym.

Always one of the leading basketball teams in the collegiate world, this year's team has already placed itself in position for top ranking. A victory over the City College of New York last week demonstrated the spectacular style of play employed by the St. John's quint.

The George Washington team visited in Brooklyn for last year's game, losing in the last quarter by 2 points. Having the same five men back who played last year would seem to favor the home team, but as the play this year has been so spotty, no favor should be given on that score. The St. John's team, however, is playing Georgetown on the previous night; and the results of that game might have a bearing on the Saturday game. One thing certainly is in favor of the Colonials, they are playing on their home court. That fact alone gives them an even chance for victory.

Lacrosse Candidates  
Urged to Register

All men interested in the game of lacrosse are earnestly requested to communicate with Ed Wilson, John Rittenour, Roy Rinker, or James Campbell in the Law School as soon as possible. The services of a former St. John's star as playing-manager have been secured, a set of sticks are available; and practice will be started immediately.

Parrack, Burgess Again  
Lead District Basketers

As a goodly Baltimore audience looked on in amazement, Wick Parrack broke local scoring records with 29 points against Loyola in Baltimore Saturday night. Parrack's spectacular shooting raised his average to 12.68 per game. Playing in eight games, Wick has landed 43 field goals and cashed in on 15 charity shots.

Burgess, who last year trailed Parrack to local scoring honors, has played in two less games, netted 30 floor shots, collected 10 free shots for a total of 70 points, and an average of 11.67.

Ossie Bluege Interviewed by Dr. Moss  
On the Psychological Aspects of Baseball

Third Baseman of Washington Ball Club Relates Interesting  
Anecdotes Concerning Physical and Mental  
Qualities of Ball Players

Dr. Fred Augustus Moss, who has achieved notoriety by his novel methods of teaching psychology, last Wednesday evening, in his physiological psychology class, conducted an interview with Ossie Bluege, third baseman of the Washington Senators, stressing the psychological aspect of baseball.

Ossie, a slim young man of medium height, possessing a pair of sharp, deep-set eyes, with a crop of stiff, crinkly, bronze hair, had the demeanor of a successful business man, and his mode of delivery, in answering Dr.

Varsity Tank Team  
Loses Close Meet  
To Rider Mermen

Vedder, Hain Win Events as  
Baltimore Friends Tram-  
ples "B" Squad

Both the first and second G. W. swim teams tasted defeat again this weekend against Rider College and Friends School, respectively.

Despite Captain Max Rote's 100-yard free style swim in 56 4-10 seconds, a new District record, the Colonials' varsity splash men were sunk by Johns Hopkins, 32 to 34. The Colonials' "B" team was defeated by Friends School, 37 to 29.

Burnside and Rote placed first in the 440-yard swim and the 100-yard free-style, respectively, while Ghormley topped two second places in the 50-yard dash and the 200-yard breast stroke. The Buff and Blue varsity relay, composed of McMillan, Vedder, Ghormley and Rote, also placed first.

Summaries  
200-yard relay—Won by G. W. (McMillan, Vedder, Ghormley, Rote).  
Fancy diving—Won by Kelly (Ri-

Black Becomes First  
Ping Pong Champion

Defeating Raphael Sherkey in three thrilling sets, Don Black became champion ping pong player in the University. With spectators watching open-mouthed, Black slammed his way into an early lead, and during most of the match he held the upper hand, although Sherkey constantly challenged with fast forehand shots.

For his victory in the first annual ping pong tourney, Black will be presented with a handsome cup by the athletic department. Contests and tourneys in other lines of sports will be held during the year to stimulate intramural interest. Horseshoes is the next on the schedule.

der); second, Ghormley (G. W.); third, England (Rider). Time, 0:24.

200-yard breast stroke—Won by Dippel (Rider); second, Ghormley (G. W.); third, Brook (Rider). Time, 2:53 1-5.

440-yard swim—Won by Burnside (G. W.); second, Vartia (G. W.); third, Dippel (Rider). Time, 6:31 1-5.

100-yard free style—Won by Rote (G. W.); second, Lewellen (Rider); third, Mueller (Rider). Time, 0:56 4-10 (new District record).

150-yard back stroke—Won by England (Rider); second, Kelly (Rider); third, Rote (G. W.). Time, 1:59 2-10.

Vedder, Hain Win  
Vedder and Hain, swimming for the second team against Friends School, placed first in the 50-yard dash and 100-yard backstroke, respectively. The relay, composed of Vartia, Herbert, Vedder and McMillan, also won.

Next Friday night in the Ambassador pool the Colonial natators meet the swift swimmers from Delaware University. Coach Lyman hopes, at that time, to break the losing streak that has recently overwhelmed his mermen.

"The average meal is not good enough when you can buy a better one for the same money."

LUNCH ..... 25c  
DINNER ..... 35c

Both will please you.

# "I'm working and Smoking overtime— hence a Milder Cigarette

"WHEN I work hard, I usually smoke more; and when I smoke more, I usually work harder—and that's why I want a cigarette that's milder."

We use in Chesterfield Cigarettes mild, ripe Domestic and Turkish tobaccos which have been aged and re-aged.

These good tobaccos in Chesterfield are used in the right proportions—that's a very important matter.

These good tobaccos in Chesterfield are blended and cross-blended—welded together; that, too, helps to make a milder cigarette with better taste.

THEY'RE Milder—THEY TASTE BETTER

# Registration Opens For New Students On January 30, 31

Second Semester Class Will  
Begin on Wednesday,  
February 1

Registration for February high school graduates and students transferring from other colleges and universities will take place Monday and Tuesday, January 30 and 31, and classes for the second semester will open Wednesday, February 1.

The schedule includes beginning classes in most of the fundamental subjects in the Junior College, also, many full-year courses, in which the sequence of study permits the first semester's work being taken in the summer sessions or in the first semester of the following year. This arrangement, conforming to the public school system of the District of Columbia, is to accommodate those who complete their high school course in February and wish to enter immediately upon college work.

Students entering the Junior College in February are given the utmost assistance in adjustment to college study and social relations and undergo the same careful process of orientation as do those entering in the fall. Deans and directors of the various schools and freshmen advisers may be consulted at the time of registration relative to the planning of programs. Psychological tests and physical examinations, conducted to establish aptitudes and physical fitness of the student follow registration. Each freshman is assigned to a member of the teaching staff who acts as a "faculty friend," establishing the intimate association between teacher and student which The George Washington University recognizes and fosters as a basis for instruction.

In addition to undergraduate and graduate work in letters and sciences made available through 48 curriculum departments, The George Washington University offers training in the professional fields of Law, Medicine, Government, Engineering, Education, Pharmacy, Library Science and Fine Arts. Admission in February to these schools (except the School of Medicine) provides for the February graduate an uninterrupted course beyond the Junior College.

Students may begin the study of law in February. A number of courses for advanced students open in the second semester, including Bankruptcy, Suretyship, Administrative Law, Patent Of-

## MEDICAL SOCIETY FOUNDERS ATTEND BANQUET

Left to right: President Marvin, Colonel A. E. Truby (representing Walter Reed), General Frederick F. Russell, Dr. Theobald Smith, Dean McKinley.

## Griggs Made Head Of Scientific Society

Washington Academy of  
Sciences Honors Faculty  
Member With Presidency

Professor Robert Fiske Griggs, head of the botany department of The George Washington University, was elected president of the Washington Academy of Sciences at a meeting held Thursday evening, January 12.

In electing Dr. Griggs to its presidency, this important scientific body recognizes a scientist who is widely known. As director of the National Geographic Society's expedition to the Katmai District of Alaska, he discovered and explored the famous "Valley of Ten Thousand Smokes," studying and classifying the flora of the region. At the recent meeting of the American Association for the Advancement of Science, Dr. Griggs spoke on Alaskan vegetation.

Before joining the University faculty ten years ago, Dr. Griggs was a member of the scientific staff of the United States Department of Agriculture, participating in various government expeditions. Later he served on the faculty of Ohio State University.

## Boutwell Will Give Journalism Lecture

"Journalism as a Profession" will be the subject of an address to be given by William D. Boutwell, chief of the editorial division of the U. S. Office of Education at 8 p. m., January 20, in the assembly hall of the Y. M. C. A., 1736 G street northwest.

This is the third in a series of lectures offered by the committee on vocational guidance of the Y. M. C. A. under the chairmanship of Dr. J. Orin Powers, associate professor of education at The George Washington University. The lectures are held every Friday evening.

James E. Pixlee, director of men's athletics at the University, and Dr. Daniel L. Borden, president of the General Alumni Association, are among the speakers listed for this series.

The purpose of the series is to help young men secure a place in business or industry. Most of the lectures are interviews with them may be obtained.

## ST. JOHN'S, LOYOLA QUINTETS BOW TO FIGHTING COLONIALS

(Continued from Page 3.)  
most respectable 11. The Colonial guards were kept on the jump continually by the activities of Bols, 135-pound clever Loyola forward, who scored 16 points and made things generally unpleasant.

Colonials Upset Johnnies  
It was quite a different story against St. John's of Annapolis on Wednesday. The first half found the Johnnies well in control of the proceedings and with a 20-18 lead at the intermission. McCarty, local product of Tech High, showed lots of class around the basket and directed a smooth attack against a lackadaisical G. W. quint.

During the rest period O'Leary evidently gave vent in no uncertain terms to his feelings on the subject of spirit. For in the second act an entirely new Colonial five (in spirit) turned the tables. Forrest Burgess, after a slow first half in which a single field goal was his contribution, led the rejuvenated quint with 15 points, followed by "Otis" Zahn, who totaled 11 for the night.

"Otis" Wickham, 245-pound giant center, suffered a painful thigh injury and had to be replaced after a collision with the stands. He spent two days in the University Hospital, but is now recovered and will soon be ready for action again.

## PROVINCE BANQUET GIVEN BY PI GAMMA MU SUNDAY EVENING

(Continued from page 1)  
fraternity, which are, in brief, scholarship, synthesis or cooperation, and service.

Prominent Officials Present  
A member of the national legal council of Pi Gamma Mu, Dr. James J. Hayden, gave a short talk concerning the growth of the national organization, stating that some day Pi Gamma Mu will maintain the same position in social sciences as Phi Beta Kappa does in humanities.

Among prominent public officials present were the Hon. Clyde Aitchison, member of I. C. C.; the Hon. Frank Morrison, secretary of the American Federation of Labor; the Hon. Herbert Brown, chief of the Bureau of Efficiency, and Judge E. T. Burke, of the Department of Justice.

## Professors Return After Year's Leave

Croissant, Sehrt and Ames  
Will Resume Classes Next  
Semester

With the opening of the second semester three members of the University faculty, who have been on leave during the first semester, will return to their duties, and two others connected with the faculty will be absent during the coming semester engaged in study and research.

Professor DeWitt C. Croissant of the English department, has spent the semester in London studying at the British museum, and in travel through France, Germany and Russia.

Professor Edward H. Sehrt of the department of Germanic languages and literature, has been for some months at the Monastery of St. Gallen, in Switzerland, working upon manuscripts of the famous medieval monk, Notker Labeo, whose writings are a source for linguistic study. Dr. Sehrt, who is a recognized authority in linguistics and the compiler of a monumental dictionary of old Saxon, is completing a dictionary of the works of Notker Labeo. Professor Norman Bruce Ames of the engineering faculty, will return to the University after some time spent in advanced work in electrical engineering at the Massachusetts Institute of Technology.

Dean Robert Whitney Bolwell and John Russell Mason, associate librarian, will spend the second semester in study and research work away from the University.

## Bassler Addresses Historical Society

Swisher Club Is Entertained  
With Story of Geology  
of Europe

Professor Ray Smith Bassler addressed the Swisher History Club, Tuesday, January 10, on the subject, "The Checker Board of Europe." Dr. Bassler sketched the general geological history of Europe and showed the arrangement of the mountains and lowland areas in a series of blocks resembling an irregular checker board. He then discussed the relation of these areas to the progress of civilization and their effect upon modern history.

For Sunday, January 29, the club is planning to make the pilgrimage to Arlington and nearby places which was planned for December 11, and which was postponed because of the snow. Those who would like to go will meet in Corcoran Hall at 2 o'clock.

## Phoebe Knappen Gives Talk On Birds in Washington

A talk on birds and the Washington Monument was presented by Phoebe Knappen at the January meeting of the Beta chapter of Phi Delta Gamma, international graduate fraternity.

## DUKE UNIVERSITY SCHOOL OF MEDICINE

DURHAM, N. C.  
Four terms of eleven weeks are given each year. These may be taken consecutively (M. D. in three years) or three terms may be taken each year (M. D. in four years). The entrance requirements are intelligence, character and at least two years of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

## After College WHAT?

**Insurance?**  
Julian S. Myrick, famous New York general agent, says: "Selling life insurance is the best paid hard work there is. No capital required other than a good character, an active mind and perseverance. Any young man with these qualifications will find a great future in insurance."

**NO OTHER BUSINESS** offers greater rewards for hard work. But insurance offers some pretty tough problems. Perhaps that explains why in this business, as in college, a pipe is the most popular smoke.

While you "crum" for that exam . . . or later when you figure out the best way to sell a \$100,000 policy, just light up a pipeful of Edgeworth Smoking Tobacco.

Edgeworth is the favorite college smoke.\* And only in Edgeworth can you find that distinctive blend of fine old burley tobacco. If you would like to try before you buy, just write Lanus & Bro. Co., 105 S. 22d St., Richmond, Va., for a free sample package.

\*A recent investigation showed Edgeworth the favorite smoke at 42 out of 54 leading colleges.

## Technocrat College Suggested With Novel Courses and Fees

By RALPH E. CARPENTER

Return their jeers  
With shouts and cheers  
For the one that we love best,  
We'll be forever true  
To old Technocratic U.  
Let the devil take the rest.

How about a Technocratic College? Here's a college made to order. It just fits the new school of thought, patterned after the word everybody's using, but no one can define, Technocracy. A college wherein the rising technocrats could learn how to use heat units or B. T. U.s for money, and possibly a robot to do their thinking.

Heat units for money is a swell idea. Have registration time come in June, at night, under a full moon, when everybody could easily pay tuition in heat units, with some to spare. Pay

the teachers with ergs or better still eggs, given at a distance by tossing them at the receiver. What possibilities the new paper made from ramie would open up! It is indestructible, has a luster like silk, is stronger wet than dry and has other possibilities. How the girls could use those arduous notes written thereon to make the jury weep in a heart balm case.

Technocracy says that, at the present rate, in 1934 we will have twenty-five million unemployed. How about a course in how to be a successful unemployed man? Or the military regulations concerning the leadership of hunger marchers? So let's organize dear old Technocratic U. wherein the young technocrats could learn the technocratic aspect of technocracy as taught by technicians.

**Cherry Tree Drive Begins Today**

Publications Office,

## Six Week-end Dances, Including Annual Engineers' Ball, Crowd Calendar Before Approaching Exams Curtail Social Life

### Fraternities Active as Officers Are Installed and Initiation Rites Held

The approaching exam week places its taboo on social events, but even so, students found interests to fill the evenings. Friday night saw the occasion of the annual Engineers' ball as well as three other dances, and Saturday night was not void of activities, which took the form of the Sigma Nu pledge dance and the Gate and Key dance.

#### Four Dances Featured on Friday, the Thirteenth

The annual Engineers' Ball took place at the Kennedy-Warren on Friday night. Herb Gordon and his whispering orchestra furnished the music, and the dance, under the direction of Ray Heimburger, was pronounced a success.

Delphi gave their first formal dance at the Kappa Delta house on Friday night, January 13.

Alpha Chi Sigma sponsored a dollar dance at Corcoran Hall Friday night, where Gerry Smitskamp and his Silver Crescents furnished the music.

The International Students' Society sponsored a formal dance at the Acacia House on January 13. Jack Haliday's Orchestra played.

Kitty Phelps attended the Alpha Chi Omega formal at Bucknell University at Lewisburg this past week end.

#### Kappa Sigma Announces Installation of Officers

Kappa Sigma announces the installation of officers at the fraternity house on January 15. The officers are as follows: De Witt Hyde, president; Allen Staibly, vice president; Gerhard F. Smitskamp, grand master of ceremonies; Walter Schmidt, secretary; Karl Gay, treasurer; Francis M. Thuney, social chairman, and Karl Gay, house manager.

Mary Ireland, Katherine McCain, Rosalie Brown, Betty O'Brien, Nance Hall, Alice Buell, Helen Mitchell, Oliver Pagan, Virginia Mahurin, Milton Scrivener, and Jeff Creyke attended the hop at the Naval Academy Saturday, January 14.

Jakie McKew was seen at Michel on Thursday, January 12.

Among those seen at Columbia on Saturday, January 14, were Lucille McGehee, Betty Rose, Peggy Silver, Bill Claudy, and Trimble Sawtelle.

#### Sigma Nu Pledges Give Dance for Actives

The Sigma Nu pledges entertained the actives, their friends, and their dates at a formal dance at the house, Saturday, January 14.

Gate and Key gave an informal dance at the S. A. E. house on Saturday, January 14, with Dagmoir playing.

Mary K. Holsopple, Anna Laura Sanford, Elizabeth Chamblain, and "Bookie" Mayo were guests at dinner in the Phi Mu rooms, January 9.

Friday night found Wardman the scene of festivities. Among those there were Betty Rose, Monta Ruediger, Peggy Barber, John Quick, Tracey Whalen, and Lazlo Summers.

The Chi Omega pledges entertained Dean Wilbur at a luncheon in the rooms Thursday, January 12.

Henry Price, of Emory College, Atlanta, Ga., is visiting at the Delt house this week.

The Mothers' Club of Phi Mu held a meeting January 9 in the rooms.

#### Tau Epsilon Phi Announces Initiation

Tau Theta chapter of Tau Epsilon Phi fraternity initiated the following at its annual convention at the Mayflower on December 30: Harry Shooman, Emanuel Cohen, Leroy Brill, Morris Epstein, Leonard Schuman, Herbert Landsman, Hyman Blond, Louis Heilman, David Goodman, and Jesse Heilman.

Ruth Shauck left Friday for Detroit where she will attend a convention for a week.

Acacia had as its dinner guests on Sunday, January 15, Professor and Mrs. Hector G. Spaulding, Professor Henry G. Roberts, and Louis Malkus.

The active members of Alpha Delta Pi were among the guests at a surprise dance for Grace Dutton, given by her parents last Saturday evening.

The Luther Club held a meeting on January 10, at which Dr. Rasmussen, of the Luther Place Memorial, was the speaker.

The pledges of Alpha Epsilon Phi entertained the actives at a banquet on Saturday, January 14.

## A. D. Pi Is Victor In Ping Pong Finals

Alpha Delta Pi carried away first honors in the finals of the Intramural elimination tournament in ping pong, while Phi Sigma Sigma emerged victorious in the volley ball contest. Semi-final and final matches were played off during the past week.

In ping pong Sigma Kappa placed second and in volley ball Alpha Delta Pi won the runner-up title.

In total number of points towards the plaque and cup awarded the winner of women's intramurals each year, Alpha Delta Pi has a long lead over all opponents with a count of twenty points. Phi Sigma Sigma is second with ten, while Chi Omega, Sigma Kappa, and Kappa Kappa Gamma follow with five each.

Next month's tournament will be bowling. The completed schedule will be announced February 6 and all teams must be ready for play on that date. Edith Spaulding will manage the tournament.

### Liberal Club Council Head Will Discuss Technocracy

"The Student and the New Social Order" will be the subject of an address to be delivered by Paul Porter before the Liberal Club on Thursday, January 19, at 8:15 p. m., in Corcoran Hall.

Mr. Porter, who is head of the Inter-collegiate Student Council, an organization composed of 150 Liberal clubs, will discuss the various panaceas for present economic ills. He will also have a word on the "new curiosity," "Technocracy."

A very popular speaker, Mr. Porter also serves as field secretary for the League for Industrial Democracy, of which Norman Thomas is a director. He is a prolific writer of pamphlets and is one of the editors of "Revolt," a liberal publication.

## Sports Department Announces Current Completed Schedule

### Women's Intramurals and Dance Symposium Are Included in Program

The physical education department for women announces the completed schedule for the current winter term.

Wednesday, February 8 at 8 p. m.—Women's Athletic Association benefit card party, Corcoran Hall 10.

Saturday, February 11, at 2 p. m.—Basketball play day with Goucher and Hood Colleges, McKinley High School.

Saturday, February 25, at 2 p. m.—Symposium on the dance with colleges in Washington and vicinity participating, Pierce Hall of All Souls' Church at Sixteenth and Harvard streets.

Wednesday, February 15, to Wednesday, March 8, at 7:30 p. m.—Basketball tournament in the gymnasium.

Wednesday, February 15—Freshmen vs. Sophomores; Juniors vs. Seniors.

Wednesday, February 22—Freshmen vs. Juniors; Sophomores vs. Seniors.

Wednesday, March 1—Freshmen vs. Seniors; Sophomores vs. Juniors.

Wednesday, March 8—Odd Classes vs. Even Classes.

Tuesday, February 14, to Tuesday, March 7, at 7:30 p. m., in the gymnasium—Volley ball tournament.

Tuesday, February 14—Freshmen vs. Sophomores; Juniors vs. Seniors.

Tuesday, February 21—Freshmen vs. Juniors; Sophomores vs. Seniors.

Friday, March 3—Freshmen vs. Seniors; Sophomores vs. Juniors.

Tuesday, March 7—Odd Classes vs. Even Classes.

Thursday, March 16, at 7:30 p. m.—Women's Athletic Association banquet.

A six weeks' Red Cross Life Saving Course beginning on February 1 at the

## First Year Women Get Hints on Finals

Suggestions for preparation for final exams were given by Mrs. Vinnie G. Barrows when she addressed the freshman women's assembly last Wednesday.

Mrs. Barrows advised consulting the pamphlet "Practical Study Aids" and employing the method most effective in the individual student's case. To obtain the best results, one should study alone, without interruption. This can be best accomplished, according to Mrs. Barrows, in the early hours of the morning, after a sufficient night's rest. Before the exam, the student should indulge in some activity that will thoroughly relax his mind. As opposed to Professor Ragatz' advocacy of a movie, Mrs. Barrows suggests swimming, and, immediately before the exam, a cup of coffee.

A fatalistic attitude is the best one to assume, during the examination. The student should be poised in the realization that it is too late to worry.

In many cases, stated Mrs. Barrows, the stress of the final is laid on the work of the semester. In preparation it is beneficial to pick out the professor's pet phases of the course, and to lay particular stress on their study.

### Atwell Wants Petitions Now For Manager of Swimming

The position of manager of women's swimming is now open to all women interested, according to an announcement made by Miss Ruth H. Atwell, director of physical education for women. Applications must be filed with Miss Atwell in Building R immediately.

Y. W. C. A., and demonstrations by the physical education classes and the dancing classes are also features of the winter program.

Registration for the life-saving course should be made with Miss Agnes Rodgers in Building R.

HOUDINI'S MILK CAN ESCAPE

It's FUN TO BE FOOLED  
...IT'S MORE FUN TO KNOW

#### ILLUSION:

One of Houdini's most spectacular escape feats was performed with a huge milk can filled with water. He invited persons of the audience to bring padlocks and lock him into the can. He got into the can, the lid was put on and fastened with several padlocks. A screen was placed in front of the can. Assistants stood by with stop watches and fire axes to save him from drowning after a certain time. About a minute later, the screen was removed, Houdini was seen panting and dripping...the padlocks remaining intact!

#### EXPLANATION:

The usual method of escaping from a milk can is as follows: The lid of the can is apparently securely padlocked to the lower portion, but actually the metal band to which the staples are attached is the top of a short inner lining. The performer, after being locked into the can, pushes the lid upward with his head and the short inner lining is forced out of place, permitting his escape. The screen is then removed.

What exciting magic there is in cigarette advertising!

Let's look at one of its greatest illusions...that cigarettes can be mysteriously given superior "FLAVOR."

THE EXPLANATION: Just three factors control the flavor of a cigarette. The addition of artificial flavoring...the blending of various tobaccos...and the quality of the tobaccos themselves. Quality is the most important. Artificial flavoring can never wholly disguise the poor flavor of cheap tobaccos.

The blending of several cheap, raw tobaccos cannot improve the flavor of any of them. A fine cigarette is a cigarette blended from costly, ripe tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why the Camel flavor has never been rivaled...why Camels have given more pleasure to more people than any other cigarette ever made.

In more costly tobaccos lies the secret of Camels' delicate "bouquet"...of their rich, cool flavor...of their non-irritating mildness. It's the tobacco that counts.

All the natural goodness of Camel's tobacco is kept fresh and rich for you by the air-tight, welded Humidor Pack. Don't remove it. Its moisture-proof cellophane also protects your Camels from dust and germs. Put a pack in your pocket today.

NO TRICKS  
...JUST COSTLIER TOBACCOS

IN A MATCHLESS BLEND

CAMELS

## Final Examination Schedule

January 21-28, 1933

The class schedule is suspended during the examination period. Examinations will be two hours in length. Books and scratch papers may not be taken into the examination room unless authorized by the instructor in charge.

Third group courses are not included. Courses in Law, Medicine and Pharmacy will be arranged by each school involved.

Conflicts which can not be adjusted with the instructor, and errors should be reported to the Registrar.
